

How fresh they are! These essays of Ivan Illich date back to the 1970s, an epoch of early disenchantment with industrialism and economic growth. Forty years later, it is striking how entrenched in our minds the myths of modernity still are. Ivan Illich brilliantly exposed them, offering a surprising diagnosis with a level of ethical reflection rarely heard of again.

Wolfgang Sachs, Wuppertal Institute, Berlin  
*Planet Dialectics: Explorations in Environment & Development*

Stop trying to grow the economy and green up energy consumption! Try, instead, to figure out how best to live. Sajay Samuel's new collection of essays by Ivan Illich inspires us all to hope for and work on radically discovering the kinds of lives that we have forgotten that we know how to live.

William Ray Arney, Evergreen State College  
*Educating for Freedom*

Even if written in the 1970s, these essays of Ivan Illich have lost none of their pertinence or newness. They help us sidestep the heedless rush towards catastrophe brought on by an out-of-control techno-economic mega-machine.

Serge Latouche, Emeritus, University Paris-Sud  
*Farewell to Growth*

**IVAN ILLICH** (1926 – 2002) became a parish priest in New York in 1951. He was appointed vice-rector of the Catholic University in Puerto Rico in 1956. In 1961 he founded CIDOC (*Centro Intercultural de Documentación*) at Cuernavaca in Mexico where he developed many of the ideas in his books.
